Sam Adams

Software Engineer @Fidelity Investments | Google TechWise Alumni
Derry, New Hampshire, United States

Summary

Software Engineer graduate from SNHU, majored in CS, minored in Applied Mathematics. - Interned at Fidelity Investments and returning in 2026 through their LEAP program - Selected for the TechWise program by TalentSprint, supported by Google - Optimized a MERN-based mapping app that handled 8,000+ data points with 56% faster load times. Projects I'm proud of include a UR3 Robot Chess AI System, MERN-based historic battle mapping app, and a roguelike game built in Godot. Outside of code: drawing, lifting/running, and traveling. Always happy to connect with people who love building things or just enjoy learning.

Experience

Fidelity Investments

1 year 4 months

Associate Software Engineer

August 2025 - Present (1 year 2 months)

Develop full-stack features using Java, Spring Boot, TypeScript, and Angular
Design PostgreSQL schemas and ER diagrams based on application requirements

Build CI/CD pipelines with Jenkins, Docker, and AWS to improve build and deployment workflows

Write automated tests using test-driven development to improve code quality and reduce regressions

Collaborate in an agile team, analyzing requirements and pair programming to deliver on schedule

Software Engineer Intern

June 2025 - August 2025 (3 months)

Merrimack, NH

Solved CShell log rotation memory leak for consumer axis data.

Utilized COBOL, JCL, and mainframe technologies, attaining understanding of mature at-scale technical systems.

Southern New Hampshire University

1 year 10 months

Engineering Lab Assistant

September 2024 - June 2026 (1 year 10 months)

Manchester, NH

Aided students' completion of capstones by creating systems to store highly specialized machine parts, enabling easy sourcing.

Student Researcher

December 2024 - June 2025 (7 months)

Integrated artificial intelligence with robotics to create a robot that can play chess against humans in real life.

Recognized chess pieces and analyzed board state with computer vision and machine learning.

Taught a UR3 robot to grab and move chess pieces, displaying the ability to learn new skills and technologies.

Planned project and secured \$750 in undergraduate research funding, showcasing personal initiative.

TalentSprint Inc.

Software Engineer Fellow

March 2023 - September 2024 (1 year 7 months)

Selected among the top 120 students across select colleges for TechWise, a program offered by TalentSprint and supported by Google that identifies and empowers capable students, preparing them for high-growth tech careers. A holistic program cultivating Industry-Ready Skills in Python, Web Development, DSA, and Corporate Proficiency, TechWise enables its participants to be job-ready.

Education

Southern New Hampshire University

Bachelor of Science - BS, Computer Science · (2024 - 2026)

Manchester Community College NH

Associate of Science - AS, Computer Science · (2022 - 2024)
